

SPC International Co-Chair

Annette Sohn, Thailand

TREAT Asia/amfAR, the Foundation for AIDS Research

Dr Annette Sohn is a paediatric infectious diseases physician and the Director of TREAT Asia, a programme of amfAR in Bangkok, Thailand. She oversees the implementation of TREAT Asia's portfolio of HIV research, education and training, as well as community advocacy and policy activities. Research is conducted in

collaboration with a regional network of adult and paediatric clinical sites in 14 countries and territories that are part of the International Epidemiology Databases to Evaluate AIDS (IeDEA) Cohort Consortium. Her own research focuses on long-term treatment outcomes of children and adolescents, and transitions from paediatric to adult HIV care. She is a member of the World Health Organization's Strategic and Technical Advisory Committee on HIV and Viral Hepatitis and Global Validation Advisory Committee on Elimination of Mother-to-Child Transmission of HIV and Syphilis. She is also a member of the National Advisory Child Health and Human Development Council of the Eunice Kennedy Shriver National Institute of Child Health and Human Development. She is co-Editor-in-Chief of the *Journal of the International AIDS Society*.
